I am a software developer with a focus on web and mobile applications. Expert in React, React Native and Node.js (Express/Nest.js). I have led successful projects, built robust APIs and managed databases with PostgreSQL and MongoDB. My passion for development and communication skills drive me to excel in challenging environments. I seek opportunities that challenge my expertise and allow me to contribute to the success of innovative projects.

WORK EXPERIENCE

Freelancer, *Full Stack Developer* | Sep 2021 - Aug 2023

I coordinated the translation of client requirements into development tasks. I designed mobile applications using React Native, covering UI/UX and data extraction. I successfully implemented both backends and applications, ensuring smooth operation. I collaborated in defining project needs and created a REST API using Node.js and MongoDB on Google Cloud.

Projects: **DriveNow! - IAmLearning - DiGall - Feva Motors APP**

Technologies: **React Native, Redux, Redux Toolkit, TypeScript, PouchDB, Realm, NodeJS, ExpressJS, Xcode, Android Studio, Figma, Docker, Docker Compose, Python, GCP, Auth0, MongoDB, Jest, Testing Library, Firebase**

tuGerente, Full Stack Developer | Agu 2022 - Feb 2023

I led the mobile team, overseeing iOS and Android app development and deployment. I supported backend design, upheld development standards, and collaborated. I managed end-to-end development, ensuring quality and timely project completion. I actively contributed insights for process enhancement during team discussions.

Technologies: **React Native (iOS - Android), Redux, Redux Toolkit, Node, Express, PostgreSQL, Docker, Docker Compose, PouchDB, AWS**

Canned Head, Frontend Developer | Nov 2021- May 2022

I specialized in React frontend development, translating UI designs into responsive, pixel-perfect web apps. I collaborated with the backend team to seamlessly integrate frontend components and backend APIs. I prioritized clear code documentation for enhanced maintainability and reference.

Technologies: **React, Redux, Adobe XD, Azure DevOps**
